

## **ELLIOT WALKER**

### ARTIST PROFILE

Elliot Walker is an extremely talented and exciting glass artist, who at a young age has mastered a skill that often takes a lifetime to develop. He takes inspiration from an eclectic range of sources, from themes on abandonment, environmental catastrophe and fine art.

He is one of a handful of glassblowers focussing on figurative sculpture which requires a combination of dexterity, speed and precise temperature control. Interestingly though glass wasn't his first passion and from a young age he was drawn to the science and psychology fields, which are often inspirations in his work today.
